

To set up the postal code lookup follow these steps.

- 1) down load files
- 2) run the sqlpatch
- 3) login and create a list called postal_codes
- 4) change the demographics screen in layouts. change the seq number on postal_code to 2
change the seq number of city to 3, change the seq number of state to 4. SAVE this info.
- 5) change the data type on postal_code to List box W/add and change size to 1 and max size to 0 SAVE
this info.
- 6) add the postal_codes list to the postal_code line.
